Profile

I am a hardworking, reliable, and positive individual with a strong willingness to learn and develop new skills. I take pride in being honest, respectful, and dependable, and I always aim to give my best in everything I do. I am comfortable taking on new challenges, learning from my experiences, and working both independently and as part of a team.

I am a motivated and approachable person who is eager to gain experience, develop professionally, and make a positive contribution to the workplace. I believe in treating others with respect, taking responsibility for my actions, and continually looking for ways to improve myself and the work I do.

Education

- Matriculant** Jan 2021 - Nov 2025
Newton Technical Highschool, Gqeberha
- Completed National Senior Certificate with a technical focus at Newton Technical High School.
 - Studied subjects include: Technical Mathematics, Technical Science, Electrical Power Systems, Engineering Graphics and Design, English, Afrikaans, Life Orientation
 - Gained basic practical experience in workshop projects along with knowledge of OHS workshop safety and basic tool use.

Employment

- General Worker** Nov 2025 - May 2026
Jones and Van Onselen, Gqeberha
- Employed by JVO on a month-to-month contract, working under the supervision of qualified technicians while providing support across installations, servicing, preventive maintenance, breakdowns and fault finding on residential, commercial, and industrial sites.
- I gained practical experience and exposure from qualified technicians, in the safe use of hand and power tools and equipment while maintaining high standards of workmanship, teamwork, safety and cleanliness in the workshop and on site.
